

# OUR BEST IDEA FOR 2016

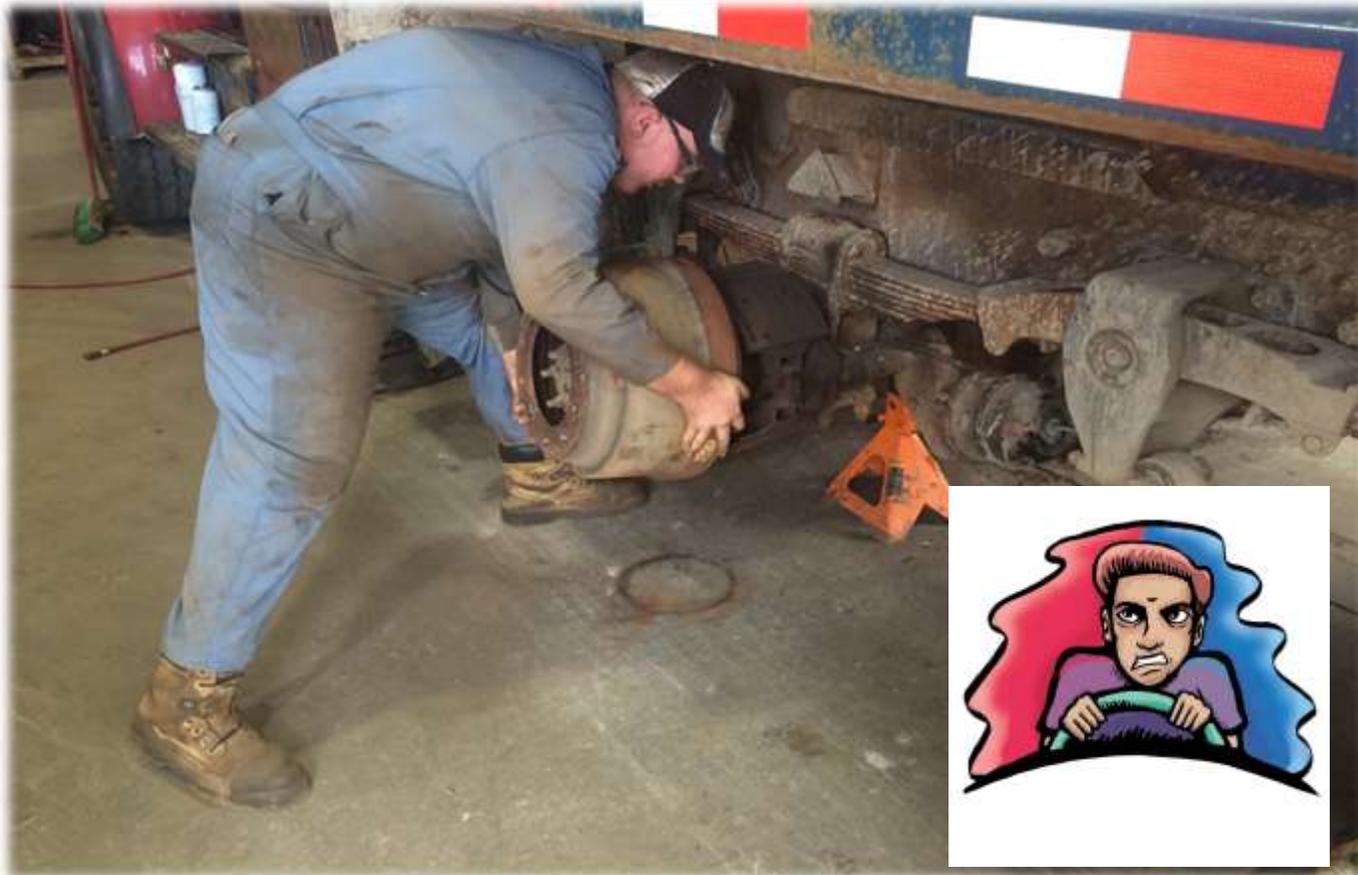

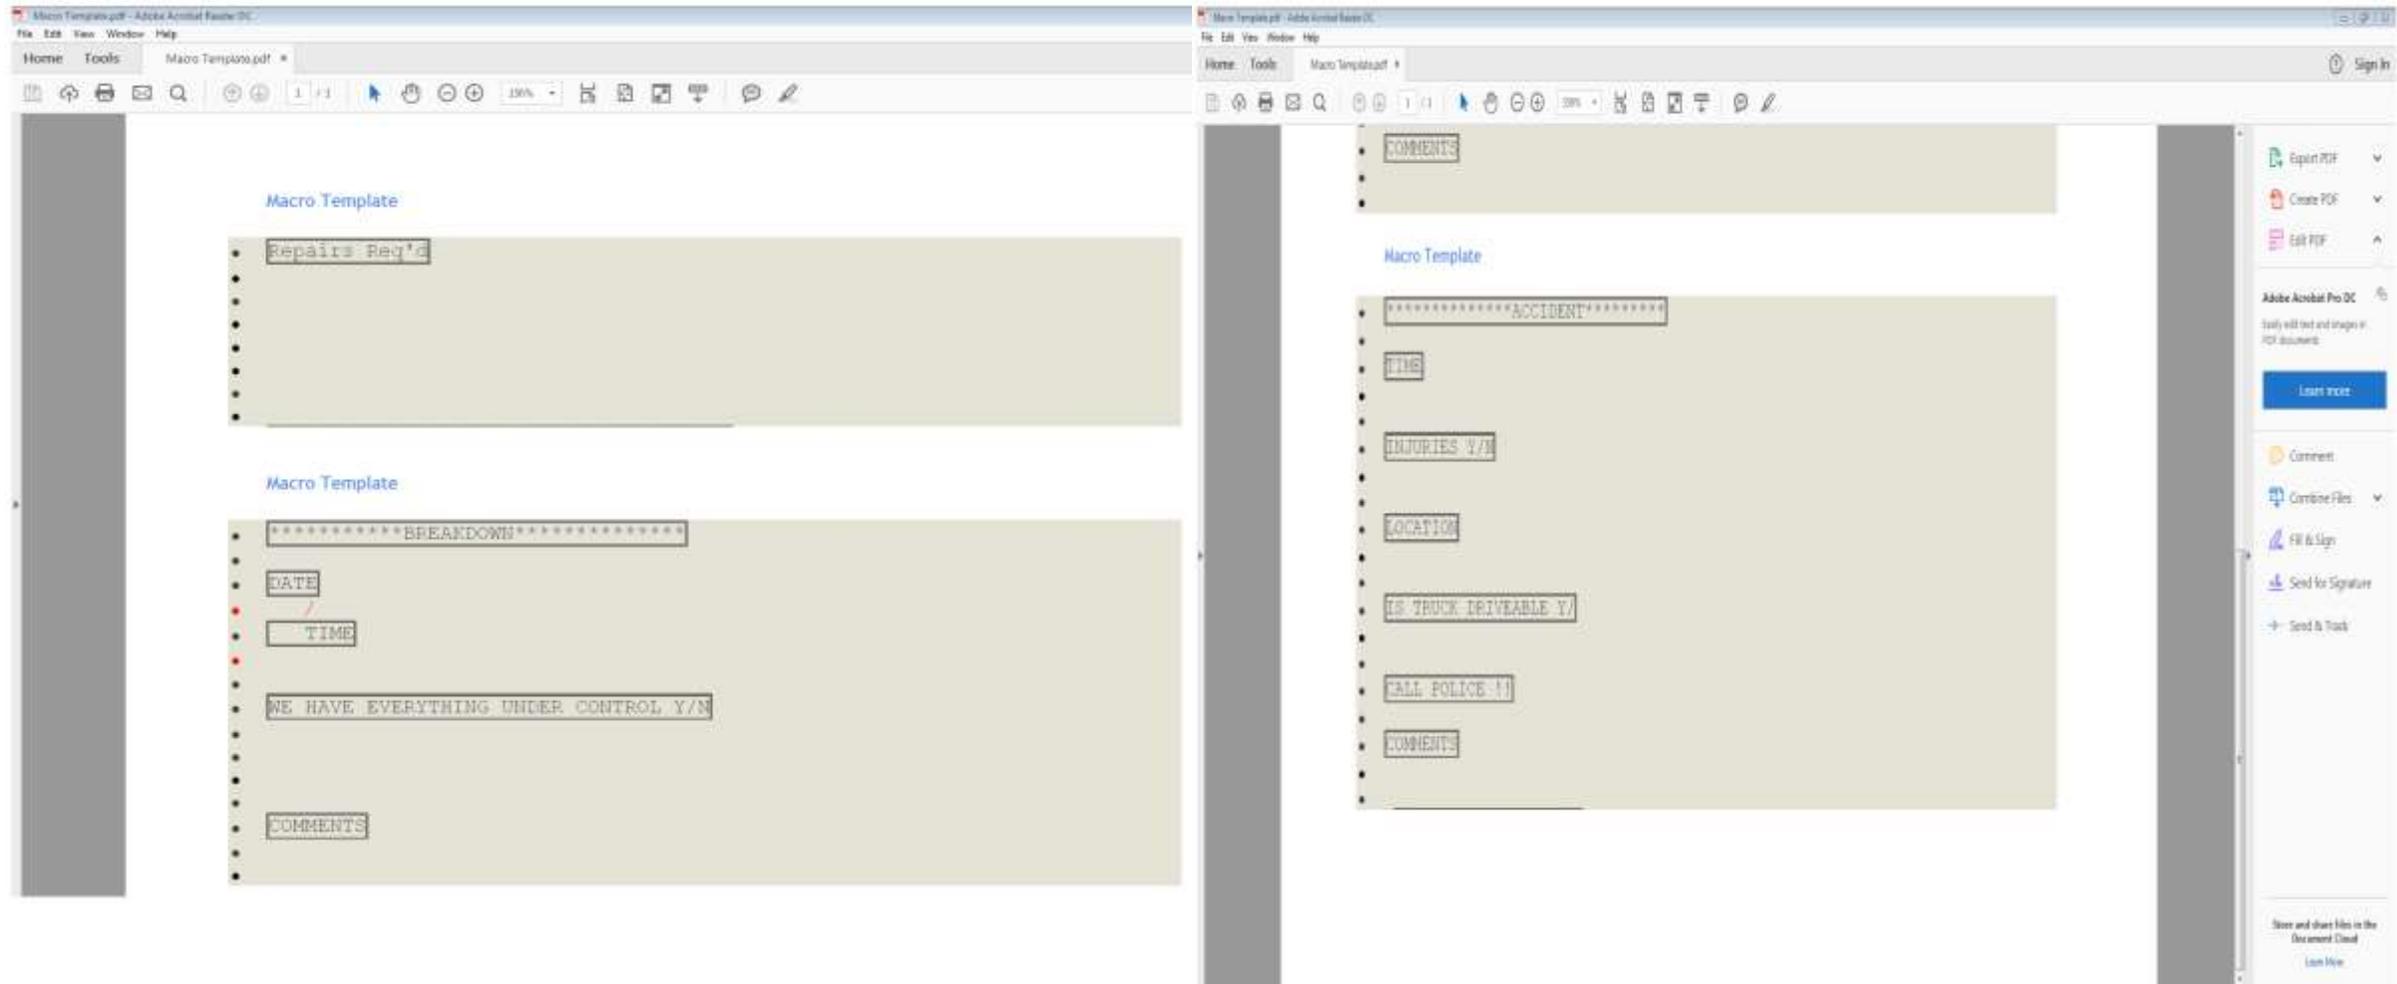

As you can imagine with 30-50 individual pages flying around the office and shop on a daily basis. Mechanics claimed they never received the repair orders so the problems never got fixed.

**We also had issues with Drivers arriving at Kurtz Trucking to leave on a trip only to find out there truck or trailer was in the shop being worked on. Therefore, Drivers were subject to long delays waiting on equipment and angry with dispatch.**

Our shop and in-house IT staff got together and designed on the “Free” web site “Google Docs” our OUT OF SERVICE board along with a new and improved CRY Sheet available right on their Qualcomm.

The CRY Sheet, we simply added a macro in our Satellite system. When a driver has a problem with his equipment he/she simply adds it to his list and sends it sometime through out his trip. It goes right into maintenance along with the truck location. Repairs are scheduled and everyone is happier.

Details for OTHER Message (Truck 219SS)

For the Out of Service Board, our shop simply adds in whenever they are working on a truck and it updates everyone immediately. We have this board downloaded on everyone's computer in the office. Allowing a quick check of the drivers truck before telling them to come to work and again, happy staff.

OUT OF SERVICE BOARD Copy - Google Sheets - Google Chrome

https://docs.google.com/spreadsheets/d/1YLQ2WfUj00Qv5HfN1WnuTKuQYU6aZ0tFG5AUsA/well?trk=CMhp0Tcm0ts=STw6Jab7gsl=75968527

Safety Department shared this file using Google Sheets

OUT OF SERVICE BOARD Copy

TRUCKS	DATE OUT OF SER	DESCRIPTION	TRAILER	DATE OUT OF SER	DESCRIPTION	HEIFERS	DATE OUT OF SER	DESCRIPTION
215	09/27/16	Team DEF Leak	ETR415	When Back In Yard	Tires Not Rinsed	R409	09/20/16	Transfer Sube-O4 Pressure
220	09/27/16	DPF	ETV434	09/14/16	Washbath Damage	R454	09/25/16	Key Pad Warranty
FUTURE OUT OF SERVICE NOTICES								
TRUCKS	DATE REQUIRED	DESCRIPTION	TRAILERS	DATE REQUIRED	DESCRIPTION	DRIVER	DATE	REASON
			ETV148	By End Of Sept	Safety			

Most important is the Out of Service tab, however, we found it very helpful in adding other tabs such as “passwords” that contain frequently used website links and passwords to access them, along with Driver availability. The Drivers send in their weekend availability by Thursday and the system is updated helping dispatch when laying out loads and making appointments.

The screenshot shows a Google Sheets spreadsheet with the following data:

TRUCKS	DATE OUT OF SER	DESCRIPTION	TRAILER	DATE OUT OF SER	DESCRIPTION	REEFERS	DATE OUT OF SER	DESCRIPTION
215	09/27/16	Team DEF Leak	53V415	When Back In Yard	Tires Not Rusted	R405	09/20/16	Reefer Sales Of Pressure
520	09/27/16	DPF	53V434	09/14/16	Water-Damage	R454	09/26/16	Key Pad Warranty
FUTURE OUT OF SERVICE NOTICES								
TRUCKS	DATE REQUIRED	DESCRIPTION	TRAILERS	DATE REQUIRED	DESCRIPTION	REEFER DOWN	DATE	DESCRIPTION
			53V348	By End Of Sept	Safety			

Two red arrows point to the 'TRUCKS' and 'DATE REQUIRED' columns in the 'FUTURE OUT OF SERVICE NOTICES' section.

This FREE community board has helped us save thousands on missed repairs, out of service issues and solved many of our drivers satisfaction issues.
